Development: HTML, CSS, JavaScript, Python, Java, C, SQL **Tools:** Microsoft Word, PowerPoint, Excel (all Certified)

Languages: Cantonese (Native), English (Fluent), Mandarin (Basic)

PROJECTS

Paws & Care | Figma, HTML, CSS, JavaScript

Feb. 2026 – Mar. 2026

- Designed a responsive pet care website from wireframes to high-fidelity Figma prototypes, restructuring navigation so pet owners could reach key services in fewer steps.
- Built an accessible front end with WCAG-aligned practices: high-contrast color choices, alt text on all non-text elements, and a back-to-top button for easier long-page navigation.
- Delivered a portfolio-ready demo showcasing the full user flow, visual branding, and responsive layout across desktop and mobile.

NexTrip | Figma

Feb. 2026 – Mar. 2026

- Conducted user research through a survey of 21 respondents across 17 questions and three one-on-one interviews to identify trip-planning pain points, then translated findings into design priorities.
- Designed a personalized onboarding flow capturing destination, budget, travel style, and activity preferences to drive tailored recommendations.
- Improved itinerary planning with organized trip cards, daily schedules, and destination overviews, and connected home, itinerary, map, and account pages into a cohesive interactive prototype.

MagTracker | Adobe Illustrator/Figma

Sep. 2025 – Dec. 2025

- Led UX and branding within a multidisciplinary team building a magnetic, QR-based item tracker, positioned as an affordable, lifestyle-oriented alternative to AirTags and Tiles.
- Created user personas, journey maps, and visual identity guidelines centered on accessibility, simplicity, and everyday usability.
- Applied design-thinking frameworks to define user needs, prototype solutions, and iteratively refine the concept based on peer and user feedback.

EXPERIENCE

Graphic Design Intern | Running Name LLC Woodbridge, VA (Remote)

Nov. 2025 – Present

- Designed logos, social graphics, and branding materials aligned with client goals, brand identity, and target audiences.
- Partnered with clients through feedback and revision cycles to refine designs for clarity, consistency, and usability.
- Managed multiple projects simultaneously under deadline while maintaining high visual and brand standards.

Tutor | George Mason University Fairfax, VA (Remote)

Sep. 2025 – May 2026

- Designed and delivered personalized one-on-one lessons using Self-Regulated Learning strategies including goal-setting, performance monitoring, and reflection.
- Adapted instruction to individual skill levels through interactive activities and structured practice to build mastery.
- Applied motivation and engagement strategies (voice and choice, reward systems, ongoing feedback) while tracking progress to support continuous improvement.
